

SPECIALTY PHARMACY DRUG LIST

Specialty medications are used to treat complex conditions like multiple sclerosis, hepatitis C and rheumatoid arthritis. This drug list includes the most commonly prescribed specialty medications covered by your plan as of January 1, 2018.*

Depending on your plan, medications marked with an asterisk (*) may be covered under your pharmacy benefit, medical benefit, or covered under both benefits. If you're filling one of these medications at a retail pharmacy, you'll have to switch to Cigna Specialty Pharmacy Services for it to be covered. If the medication is covered under your medical benefit and you're getting it from your health care provider, you're not required to use home delivery.

This drug list is not a complete list of covered specialty medications, and not all of the medications listed here may be covered by your specific plan. This list is also regularly updated. You should log into myCigna.com or check your plan materials to learn more about the specialty medications your plan covers.

Cigna Specialty Pharmacy Services can help you manage your health and prescription needs

We want to make sure you're receiving the care and support you need every step of the way. Our therapy management teams, made up of health advocates with nursing backgrounds and pharmacists, are specially trained to deliver the best experience possible by offering:

- 24/7 access to customer service and pharmacists to help you with any questions
- Convenient delivery right to your door, or location of your choice, in packaging designed to protect your privacy
- Helpful coaching and reminder services
- Supplies like tape, bandages, sharps collector, swabs, etc. - at no additional charge
- Educational materials
- Financial assistance programs if you need help paying for your medications

It's easy to get started using Cigna Specialty Pharmacy Services. Call us at **800.351.3606** or go to cigna.com/specialty-pharmacy-services.

Together, all the way.®

Offered by: Cigna Health and Life Insurance Company or Connecticut General Life Insurance Company.

* If your plan requires you to use home delivery for specialty medications and the specialty medication marked with an asterisk (*) is covered under your pharmacy benefit, you have to fill this medication through Cigna Specialty Pharmacy Services for it to be covered. Depending on your plan, you may be able to fill your prescription one time at any in-network retail pharmacy before you have to use Cigna Specialty Pharmacy Services.

^ This Oral specialty medication may be covered differently than other specialty medications. Refer to your plan materials or myCigna.com for coverage information.

Cigna reserves the right to make changes to the Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

+ state laws in Texas and Louisiana require your plan to cover your medications at your current benefit level until your plan renews. This means that if your medication is taken off the drug list, is moved to a higher cost-share tier or needs approval, your plan can't make these changes until your renewal date. To find out if these state laws apply to your plan, please call Customer Service using the number on the back of your ID card.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

All Cigna products and services are provided exclusively by or through operating subsidiaries of Cigna Corporation, including Cigna Health and Life Insurance Company (CHLIC), Connecticut General Life Insurance Company, Cigna Behavioral Health, Inc., Cigna Health Management, Inc., Tel-Drug, Inc., and Tel-Drug of Pennsylvania, L.L.C.
